The Department of Recreation

History and Field

The Department of Recreation grew out of an undertaking entered into by the Russell Sage Foundation in 1907, under the name of the Playground Extension Committee, to further the establishment of children's playgrounds and to give temporary aid to a national association then being organized to carry forward the playground work.

In 1909 the Playground Extension Committee and the Backward Children Investigation, also entered into by the Russell Sage Foundation in 1907, were combined to form the Department of Child Hygiene. This Department had to do with matters pertaining to health, education, and recreation.

As the work progressed, the activities relating to recreation were delegated to a branch of the Department called the Division of Recreation, and those pertaining to education were administered by another branch called the Division of Education.

The national association, The Playground Association of America, which was temporarily assisted in 1907, soon developed into a strong, efficient organization for the promotion and improvement of children's playgrounds. As rapidly as it has been able to secure the necessary funds it has extended its activities to other forms of recreation than children's playgrounds; wholesome recreation for the entire family being the ultimate end to be attained.

The Division of Recreation therefore devoted its energies to research, publication, and special recreational problems not covered by the Playground Association of America. It has also co-operated with the Association in holding recreation institutes, preparing material for publication, finding competent workers for recreation positions, and in other ways, but not by the contribution of funds.

In 1913 the Division of Recreation became a separate department of the Russell Sage Foundation.

Staff

The staff of the Department of Recreation includes:

Lee F. Hanmer, director.

Clarence A. Perry, assistant in charge of the wider use of the school plant.

Clara L. Van Slyck, assistant in charge of recreation for girls and women, and rural recreation.

August H. Brunner, secretary.

Marguerite P. Williams, secretary.

Anna E. Werring, file clerk.

Howard R. Knight, office secretary.

Principles of Action

The principles that have guided the Department in its various activities are:

1. *Research.* To provide a sound basis for action it is necessary to make a thorough, impartial search into the conditions underlying each proposed activity, and to obtain a clear understanding of their mutual relations to other social tasks.

2. *Securing community action.* This involves bringing the facts to the attention of those who are responsible for action, stimulating the adoption of various forms of social betterment especially related to recreation, and suggesting methods of procedure.

Lines of Activity

How Lantern Slides are Loaned

The Department of Recreation is glad to assist local undertakings by loaning lantern slides for use at meetings or exhibitions. The slides mentioned in the list have been made in duplicate for this purpose. Each slide contains a brief description to aid the person using them. *There is no expense except that of expressage*, but the date of the meeting must be given when application is made, and the slides should be returned immediately after they have been used. This arrangement is necessary in order that we may keep faith with those to whom slides have been promised.

In order to facilitate the use of slides for local meetings, we have arranged special sets for use with prepared lectures which are sent with the slides on request. These lectures cover the subjects of Wider Use of the School Plant, School Athletics, and Holiday Celebrations. A charge of \$3.00 is made for the use of these "traveling lectures" with slides, in addition to express charges.

In order to have our slides perform a greater service we shall be glad to duplicate any of them at cost for any organization or individual desiring them for their own permanent use. Our manufacturer quotes us these prices: 20 cents for a slide made from a negative, 40 cents for a slide made from a photograph or another slide. The star (*) opposite a slide number indicates that we have the negative of that slide. The only additional cost will be that of transportation.

Our shipping cases hold fifty slides. Experience has demon-

strated that fifty slides are ample for a single lecture and that in many cases better results may be obtained from using even fewer.

When sending for slides, please indicate the letter and the number of each slide desired, e. g.

B. 2, 3, 27, 33.

C. 48, 90, 92, 93, 94, 110.

H. 1, 3, 5, 7, 8, 24, 36.
